

VEDANTA FABRICS is into manufacturing of non woven fabric shopping bags, which comes in different pattern, different sizes & different colors as per the needs of the consumers. Avail from us a wide range of fabric carry bags that finds wide application in varied industries for packaging purpose & also is used in mall culture.

The bags are used in many states in India and very soon it will be used in all states in India as all of us know plastic bags are not eco friendly and are getting banned in country, Government is taking strict action to stop the use of plastic bags.

Features:

- Attractive choice of colors & sizes
- Beautiful prints of company identity
- Durable
- Attractive designs
- Elegant patterns
- Environment Friendly

We bring forth an extensive range of shopping bags for the customers. Finest quality of fabric is used for the manufacturing these Bags, which makes them at par with the quality standards. These products are widely used for shopping purposes.

Our eco friendly shopping bags will carry the environmental message to a world ready to embrace a brighter ecological future. Using eco-friendly reusable shopping bags instead of plastic bags is a culture, which will evolve over time. We make the "move in the right direction" easier by providing a bag that rolls up and becomes a lightweight and portable. We have pushed the eco-design on priority to bring you guilt-free shopping bags.

Nearly every departmental store and boutique, countless sports shops, software retailers, food emporiums, and one-of-a-kind specialty shops around the world, provide custom designed shopping bags for customers to take away.

Our executives will discuss your requirement and provide an appropriate solution.
